

## **Our Presentations:**

### **Show Your Stuff! (Friday, 10:00am)**

Making your Museum a place of interest is always a challenge! Bill Hall, former Director of the Central Ohio Fire Museum, and past- President of the Fire Museum Network, shows us how even “low-cost” improvements can liven up our displays!

### **Boston On Fire! (Friday, 11:00am)**

Renowned Journalist and author Stephanie Schorow tells us about the devastating Boston fire of 1872, and how lessons learned back then still apply today!

### **Brag About Your Museum (Friday, 1:00pm)**

Got a great traveling exhibit going on? Had an exciting fundraising event at your Museum? Got the best darned gift shop in the world? Come brag about it!

### **Fire Safety and Prevention - The Next Generation (Friday, 2:00pm)**

It's really, REALLY hard to educate and entertain kids today, what with all the smart phones and video games, but our own Danny Warner shows us how he does both with his Fire Safety Show!

### **San Antonio Fire Department History (Friday, 2:30pm)**

Every Fire Department is different, and every Fire Department has its own unique history. SAFM Archivist Hector Cardenas gives us a brief look at how we here in San Antonio show off our Department's unique history, and how he did it at no cost to us!

### **Volunteers – Recruiting, training, retaining, recognizing (and terminating) our most valuable assets! (Saturday, 9:00am)**

Maybe you're a small Museum and don't need an over-abundance of volunteers, but when you need 'em, you need 'em! Bob Heckman of the San Antonio Fire Museum offers a suggested outline for a successful Volunteer Program.

### **Firemen, Fire Wagons, and Fire Horses (Saturday, 10:00am)**

Dave Hubert, of the California Fire Museum and Learning Center, tells us about his book and his 1902 “American” Steam Fire Engine; a great introduction to the demonstration of “Rosie” later in the afternoon!

### **Fire Marks – History and importance (Saturday, 11:00am)**

Bill Pope, of the Fire Marks Circle, gives us a look at the history of Fire Marks, why they were so vitally important in the early days of firefighting, and how to properly exhibit and explain them to our guests

*Current as of April 8, 2022*

*All times noted are Central Time*

*Program subject to change*
